

# Stitchable Cork Gingerbread Ornaments

Skill Level: Intermediate

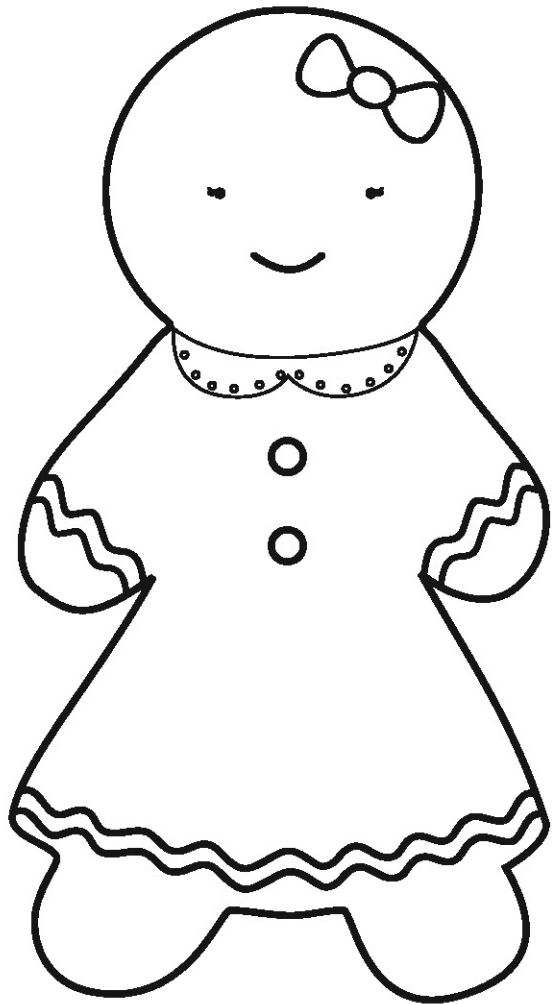

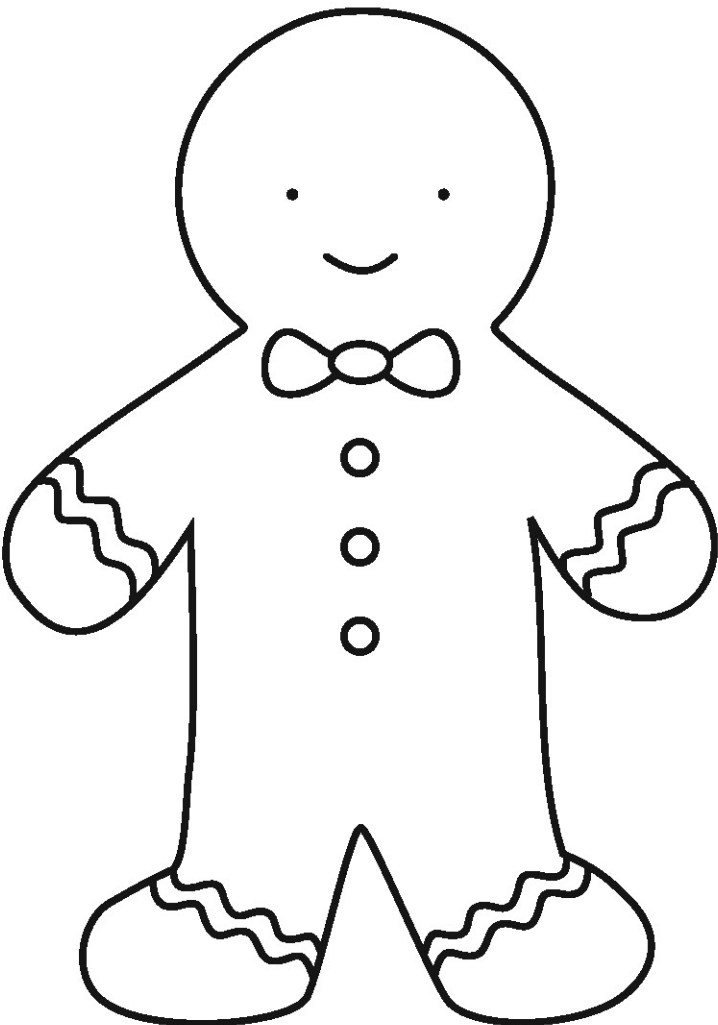

## Supplies:

- 1 - 10" piece of DMC stitchable cork fabric
- 1 - 8" piece of batting
- 1 - 8" square of white felt
- DMC embroidery floss - white, 310, 704, 666
- 4 tiny buttons
- 18" small ribbon
- Needle
- Scissors
- Transfer paper
- Marking Pen

## Instructions:

1. Trace the gingerbread boy and girl onto the cork. It works best to use transfer paper, then go over the lines with a removable marking pen.

2. Using three strands of floss, stitch the details onto the boy and girl. Use a back stitch for all outlines and frosting lines. Fill the bows with a light satin stitch. For the eyes, details in the boy's bow tie, and details in the girl's collar, stitch French Knots.
3. Stitch buttons in place.
4. Carefully cut out the gingerbread shapes, making sure you don't cut through any of the stitching.
5. Using your pattern as a guide, cut out a piece of felt the exact size of the gingerbread pieces, and a piece of batting slightly smaller than the shapes.
6. Cut your ribbon in half. Fold the pieces in half and knot the ends together. Stitch the knot to the top of the batting pieces.
7. Layer the pieces together, with the felt on the bottom, then the batting, then the cork piece. Stitch all the pieces together with a blanket stitch.
